

2023 Summer Work Experience

Click **HERE** for application!

The Summer Work Experience Program is coordinated by the **UCGHI Planetary Health Center of Expertise** at the **UC Davis One Health Institute**, in partnership with the **University of California Division of Agriculture and Natural Resources (UC ANR) Cooperative Extension** and other host organizations. This program offers students a unique hands-on opportunity to work on projects related to natural resources, agriculture, climate change, health and nutrition, youth development and environmental policy. Applications for the 2023 program are now available, and those submitted by February 10 will be in the initial review cycle. Additional student and host applications will be accepted through March 31, 2023.

Desired skills, experience, and qualities of the fellow:

- Undergraduate or graduate student status at a UC campus.
- Minimum GPA 2.8 to be eligible for the fellowship.
- Strong desire to learn, proactive and solution-oriented attitude, excellent written and verbal communication skills, and critical thinking and analytical skills.
- Ability to analyze and synthesize complex information from various sources.
- Ability to prepare reports, factsheets, and other public communications tools.
- Ability to work and communicate with diverse stakeholders.
- Confident, self-motivated, well-organized, and able to work independently and on teams

Examples of activities that the fellow may be involved in:

- Developing and delivering outreach and educational material for youth, families, and communities programs.
- Assisting with research to investigate vectorborne diseases, assess resource utilization and improve farming practices in California.
- Providing support to programs evaluating the benefits of integrated pest management in agriculture using a One Health approach.

Application Deadline:
February 10, 2023
